RECOMMENDATIONS OF THE SUB-COMMITTEES APPOINTED TO CONSIDER THE FOLLOWING QUESTIONS REFERRED TO THEM AT THE SECOND SESSION OF THE REPRESENTATIVE ASSEMBLY HELD IN APRIL 1917.

1. Levy of Income-tax.

1. The recurring surpluses of a continued series of years which the State has happily enjoyed, show the prosperity of the finances and further taxation does not therefore appear to be necessary.

2. The levy of income-tax does not seem to be open to objection if the sole object is the re-adjustment of the burden of taxation, particularly to relieve the burden on the land. Mines, railways and other similar large concerns should, in such a contingency, be liable to income-tax like other businesses.

3. It however seems to the committee to be better to keep in reserve such a source for being tapped when the finances of the State are less prosperous.

4. It appears to have been estimated that by the levy of income-tax a sum of Rs. 2 lakhs and odd per annum may be realized. This sum, less the cost of collection, does not seem to be an adequate compensation for the annoyance and worry to the tax-payers.

5. The levy of income-tax in our present economic condition may hamper local bodies in developing their resources by the levy of profession tax for the finances of Local Self-Government.

As the committee was opposed to the levy of income-tax as a whole, it did not consider it necessary to go into the details relating to exemptions, rates, etc.

2. Relation between Inamdars and their Tenants.

1. Introduction of Survey Settlement in Inam Villages.—Survey Settlement may be introduced if all the Inamdars or owners of not less than three-fourths of the aggregate interest in the village consent to this.

It was also resolved that pattas may be issued to the kadim tenants as laid down in the L. R. Code and those to whom rights in lands have been given by the Inamdars, and to those to whom the Inamdar consents to give pattas.

Items 2, 3, 4, 5 and 6.—Regarding these items the resolutions passed by the Inam Committee are approved.

Item No. 7.—It is sufficient if the Inamdars keep accounts Nos. 14 and 15 as at present and they should not be compelled to keep other accounts.

Mr. Linge Gowda was of opinion that in addition to accounts Nos. 14 and 15, the Inamdar should keep khaneshmari and pahani accounts and if they fail to keep these accounts, the help mentioned in section 97 and the powers under section 99, Land Revenue Code, should not be given to them.

Note.—Mr. B. Narasinga Rao, the convener of the meeting said his opinion was in consonance with the views of the Inam Committee of which he was a member on all the points raised.

3. Levy of Supari Cess.

1. (*a*) It is very necessary that *koleroga* to areca-nut should be eradicated and that labour should be supplied in *malnad*.

(*b*) Arrangements should be made to educate our people in the cultivation of *supari* and also for finding proper market for the sale of the produce profitably.

2. As no useful purpose other than finding out a proper market, is served by the levy of *supari* cess, it should not be levied in future in the *maidan* parts.

producer and the other for providing cheap capital for which a return is spread over a series of years. The former is done by means of Co-operative Societies and the latter by means of Land Mortgage banks. As has been explained above, our first need is that the amount which Co-operative Societies can obtain from the central financing agencies should be greatly increased and for this purpose, a proper central organisation is necessary. The question of starting Land Mortgage banks also requires to be investigated.

Other forms of co-operation should also be developed. Side by side with this, the education of the producers and raising the standard of their efficiency and character should be attempted.

4. Legislation to enforce weekly labour, etc., under the Village Improvement Scheme.

1. There is no necessity for legislation at present.
2. If the Village Panchayets and Government Officers co-operate heartily with each other, the work of the Village Improvement Scheme and other matters connected therewith will undoubtedly be well done.
3. Rewards should be granted by Government to those villages in which the work is reported by the District Officers to have been satisfactorily done.

Mr. Guruvareddy dissented.

5. Increase of remuneration to Patels and Shanbhogs.

1. The committee is of opinion that remuneration of Shanbhogs and Patels should be increased all round by one per cent.
2. It should be a uniform increase of one per cent all round.
3. The hereditary character of the appointment shoud be maintained.

6. Improvements of Tanks and Channels.

1. If more than half of the raiyats consent, the cess may be compulsorily levied. Legislation may be framed accordingly.
2. Tanks with an atchkat of over Rs. 2,500 and all minor tanks should be under the control of the Panchayets subject to the supervision of the Revenue Department. The amount of cess should be placed in the savings banks in the name of Panchayets. Estimates for repairs should be prepared by Government and the work entrusted to the Panchayets.
3. The amount realised from *hullubanni* and fishery and the cess fund should be included in the above fund.
4. The channels, etc., should be placed entirely under the single control of the Engineering Department and the present dual control of the channels under both Revenue and Engineering Departments should be obviated.

7. Control of Primary, Secondary and Lower Technical Education.

1. All the suggestions contained in the note are acceptable to all.
2. The powers referred to in the note may be delegated to all Regulation Municipalities as a special case and the money limit may be removed in their case.
3. The grants now given from the Municipalities to the secondary schools should be withdrawn from them and the same made over to elementary education.
4. The duties of the present Text-book Committee are not very satisfactory. Text-books are not acceptable to all. These text-books are frequently changed unnecessarily without proper reasons. Therefore, a member from each district may be appointed to the Text-book Committee.

8. Adult Education.

The word "Adult" shall mean any illiterate person of either sex who has attained 18 years of age and who is not attending any existing educational institution except what are called "Adult Schools."

Explanation.—(*1*) The scope of Adult Schools shall include the education for the labourers, workmen, artisans of any age and the unemployed also.

(*2*) The committee is of opinion that adult schools are necessary in the city, town and village of the State. An adult school shall be open in every village as an experimental measure where there is a Village Improvement Committee and in such villages, where such Village Improvement Committees may be formed, and such Village Improvement Committees shall be held primarily responsible for the conduct of the schools. The committee recommends that, as a matter of inducement, the students of such schools who regularly attend not less than 75 per cent of the school working days, shall be given a prize of Rs. 2 a year. The grants given to such schools shall invariably depend in amount on the average attendance of students of the school and no school will be entitled to any grant if it has less than 10

students calculated on the average attendance. The amount of the grant shall b fixed by the department on the above principle. The Village Committee shall, unde the supervision of Taluk Progress Committee, fix the hours of instruction having regard to the seasonal and local condition of the village and the supervision of such school shall be left to the Taluk Progress Committee. In those places where there is either a Municipality or Union, these bodies may start and maintain them. Where private agencies come forward to open such schools, equal facilities may be given to them as well. The committee also recommends similar schools for the criminal population in the jail.

Finance.—The committee is of opinion that such schools shall be aided. The committee desires that at least two thousand more adult schools shall be started, distributed amongst various Taluk Progress Committee areas according to importance and population and that a sufficient provision be made by Government for the opening and maintenance of such. Private agencies are also required to take more interest in the starting, maintenance of schools and contribution of funds for the same.

The committee considers that the object of such a school is to raise the general literacy of the masses with a view to enable them to live and aim better. With this object in view the curricula may be so modified by the educational authorities as to suit the actual needs of the people for whom such schools are intended. The periodical lectures and arrangements for practical instruction as suggested under Subject 9 may be adopted.

9. Separation of Judicial and Executive Functions.

That the Amildars and Assistant Commissioners be relieved of their magisterial powers and in their place special judicial officers be appointed for selected areas.

That an adequate number of second class magistrates of pay and status of Munsiffs be appointed for taluks and a first class magistrate with appellate powers with the status and pay of Senior Assistant Commissioners be appointed one for each district.

This scheme is hoped to meet the present requirements of the situation and remove the anomaly that has so long existed in the administration of justice.

RECOMMENDATIONS OF THE SUB-COMMITTEES APPOINTED TO CONSIDER THE FOLLOWING QUESTIONS REFERRED TO THEM AT THE SECOND SESSION OF THE REPRESENTATIVE ASSEMBLY HELD IN APRIL 1917.

1. Levy of Income-tax.

1. The recurring surpluses of a continued series of years which the State has happily enjoyed, show the prosperity of the finances and further taxation does not therefore appear to be necessary.

APPENDIX A.

SOME OF THE MAIN ITEMS ON WHICH THE MEMBERS OF THE REPRESENTATIVE ASSEMBLY SPOKE AT THE MEETING IN CONNECTION WITH THE BUDGET ON 26TH APRIL 1917.

I. FINANCIAL SETTLEMENT.

Most of the speakers expressed their approval of the new policy of Financial settlement and the scheme of reserves. The increase of the famine reserve from 2 to 5 lakhs was commended. A few of the members, however, (Messrs. C. Srinivasa Rao, H. V. Rangasami and S. Venkatesiah) doubted the usefulness of the scheme and observed that it would not tend to the better utilisation of funds by departments. They also observed that the principles on which the standard of expenditure, the allotment of the share of growth of revenue to the several departments and the financial reserves were framed, were not explained in the budget estimates and information on these points was sought for.

II. CLASSIFICATION AND CHANGES IN FORMS OF BUDGETS AND ACCOUNTS.

The general opinion was that the presentation of the budget this year was much clearer and in a more intelligible form than the budgets of previous years.

A representation was made that the Kannada budget now published in abstract may contain the detailed heads also as in the English budget.

A suggestion was made to show in the accounts and estimates the revenue and expenditure of malnad parts separately. (The Dewan enquired whether the necessary statistics regarding malnad area were not collected by the Malnad Improvement Committees).

III. THE ASSETS AND LIABILITIES STATEMENT.

The omission of this statement in the Budget was noticed by some speakers (The Dewan replied that the necessary information would be furnished in the Dewan's address at the Dasara Session).

IV. CAPITALISATION FUND FOR MINING REVENUE.

Mr. Ramanna of Mysore expressed himself in favour of the treatment of mining revenue as adventitious and the creation of a reserve fund therefor.

Mr. Balakrishna Rao suggested a similar capitalisation fund for the Excise revenue in view of its gradual reduction to the minimum possible if not its total abolition.

V. *Re*: MAJOR HEADS OF REVENUE.

A few speakers (Messrs. H. V. Rangasami, Balakrishna Rao and Vasudeva Rao) criticised the growth of Excise revenue and suggested the desirability of reducing it by decreasing the tax on the drinks of poor people, by a reduction in the number of shops, by introducing the system of local option and by imposing a time-limit for sale.

Mr. C. Srinivasa Rao pointed out that owing to inordinate delay in the disposal of darkhasts, Government were at present losing much of its permanent land revenue.

The abolition of fees in the primary classes of all English and Kannada Schools was suggested by a few speakers (Messrs. Shankaranarayana Rao and Venkatakrishnaiya).

VI. General Observation *re*: expenditure.

1. That the increase in the recurring expenditure of the State year after year was heavy was the theme of some speakers and the formation of the Finance or the Retrenchment Committee consisting of Government officers and a few non-officials to enquire into the matter was suggested.

2. It was represented by Mr. Venkatakrishnaiya that the provision of about 58 lakhs under the head 'Moral and Material Development' might be further augmented to provide for increased grants to the Mysore University for the purpose of opening (1) Medical (2) Engineering and (3) Commercial institutions.

3. Additional grants were also sought for District Committees of the Economic Conference for Secondary education and rural libraries. It was stated that sufficient encouragement to students to undergo training in Ayurvedic Medicine was not afforded. The formation of a committee for the development of Industrial education was also suggested.

4. The grant of subventions and suitable facilities to co-operative credit banks was suggested by Mr. K. Ramanuja Iyengar.

5. Several of the speakers were of opinion that the percentage of working expenses in the Forest Department on all items other than Sandalwood was heavy compared to the revenues derived therefrom and that the matter required the close scrutiny of Government.

6. The practice of making lump-sum provisions in the budget for establishments or schemes not matured and sanctioned before the commencement of the year was criticised by Mr. Karnick Krishnamurthi Rao.

7. The utility of the Economic Journal both in English and Kannada was much discussed. A few were for the utilisation of the money spent on it in other useful directions.

8. The abolition of the Amrut Mahal Department, which Mr. Karnick Krishnamurthi Rao said was not producing any substantial revenue to Government, was suggested.

9. Suggestions for the better utilisation of (*a*) the grants given to the botanical gardens by maintaining the Lal-bagh on more scientific lines and (*b*) the grants for experimental fruit cultivation also were made by Mr. Subbiah. Additions to the Government Museum building and the expansion of its usefulness were also suggested.

VII. Additional grants and provisions were asked by several members on various items, the chief of which are, as under:—

1. Separation of judicial and executive functions. If additional funds cannot be provided for by reducing expenditure in other directions, the required amount may be met by withdrawing funds either from grants under improvements to Local Bodies* or from minor irrigation works where there would be surely lapses as in previous years.

*Bangalore City Improvement	2 lakhs
Mysore City ,,	3¼ ,,
Total ...	5¼ ,,

2. Increase of Potgi to Shanbhogs and Patels.

3. Minor Tank Restoration and other irrigation works.

4. Increased grants for Malnad Improvement.

5. Increased grants for education in various branches:—
   (*a*) High Schools to be established at Koppa, Saklespur and Tirthahalli.
   (*b*) Collegiate education in Shimoga.
   (*c*) Improvement of Mahomedan Education (By Mr. Mahomed Abbas Khan and others) by the construction of sanitary school houses affording facilities for conveyance to ghosha girls, improving the pay of teachers, etc., grants of Rs. 20,000 for each of the District Municipalities except Mysore and Bangalore for improvement of primary education.

6. Agricultural instruction and improvement with suggestions for redistribution of the existing grant on farms, scholarships, etc.

7. Improvement of the pay and prospects of the Sub-Registrars in the Registration Department. A provision of Rs. 10,000, made in the budget was pointed out.

8. Improvement of pay of the constabulary and the efficiency of the police in the Malnad.

9. Increased grants for Veterinary Hospitals.

10. Provision for the Maternity Hospital at Shimoga, scholarships for studying the Unani system of Medicine and the establishment of Ayurvedic Schools.

11. Establishment of a Sub-treasury at Narasimharajapura.

12. Water-supply to Koppa.

13. The necessity for an early decision *re*: Dodballapur water-supply.

14. Provision for drainage and water supply to Kolar.

15. Provision for a railway from Mulbagal to Kolar. It was stated that the people would contribute from 2 to 2½ lakhs.

NOTIFICATION.

No. 71—G. M. 313-16-1, dated Camp Mysore, 9th October 1916.

The following Rescript from His Highness the Maharaja to the Dasara Representative Assembly, 1916, is published for general information.

By Order,
D. M. NARASINGA RAO,
Secy. to Govt., Gen. Dept

Rescript from His Highness the Maharaja Sri Krishnaraja Wadiyar Bahadur, G.C.S.I., to the Dasara Representative Assembly, 1916.

It is now thirty-five years since my august father, Maharaja Sri Chamrajendra Wodeyar, sanctioned the constitution of the Dasara Representative Assembly in order to bring the officers of the Government into closer touch with the leaders of the people and to enable the latter to lay their grievances and aspirations personally before Government.

The Representative Assembly has more than fulfilled the expectations which were formed at the time of its institution, and I have observed with gratification the intelligence and moderation which have marked its deliberations, and the increasing interest which its members have been showing in all questions of public importance connected with the administration of my State.

It is my earnest desire to increase still further the mutual confidence between the Officers of the State and the Representatives of the people and to enable the latter to understand and identify themselves still more closely with the policy of Government.

I have therefore resolved to sanction the holding of a Second Session of the Representative Assembly every year.

I feel confident that this measure of reform will promote both the welfare of my people and the efficiency of my administration.

KRISHNARAJA WADIYAR.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

ORDER No. G. 7212-60—G. M. 362-16-1, DATED 1ST DECEMBER 1916.

His Highness the Maharaja having graciously sanctioned the holding of a Second Session of the Representative Assembly every year, the Government are pleased to direct that the Second Session be held at Mysore in the latter part of April every year for a period not ordinarily exceeding four days.

2. The subjects to be discussed at the Second Session, not exceeding 250 in all, will fall under the following classes:—

(1) The State Budget for the ensuing year (only rough figures are expected to be available).
(2) Such of the subjects of the preceding Dasara Session as were not discussed then for want of time.
(3) New subjects of general importance not exceeding 20 for each district.
(4) The progress made with regard to the more important of the major and minor wants prepared in accordance with Government Order No. G. 6345-93—G. M. 259-14-1, dated the 18th December 1914, in each district will also be examined.

3. The new subjects referred to in (1) and (3) should be ordinarily selected at a meeting of the Representative Assembly members held at the District Headquarters for the purpose.

4. No local or supplemental subjects will be received or discussed.

5. The election of members by Municipalities, District Boards and other recognized Associations for the Dasara Session will hold good for the Second Session also.

6. On all matters not herein provided for, the rules relating to the conduct of business at the Dasara Session will apply so far as they are consistent with the arrangements now ordered.

7. Separate orders will issue in regard to the officers whose presence at the Second Session is necessary.

APPENDIX.

I.

DEWAN'S CLOSING REMARKS AT THE MYSORE REPRESENTATIVE ASSEMBLY ON 27th APRIL 1917.

GENTLEMEN,

You must be weary working continuously for the past five days and I have no wish to detain you by any lengthy remarks.

My first duty is to assure you that it will give me great pleasure to convey, as requested, your loyal and respectful acknowledgments to His Highness the Maharaja for granting you the privilege of a second session.

We have discussed many subjects and in regard to most of these, I can but indicate the opinion of Government only in a general way. Most of the subjects have to be considered by my colleagues and myself with the aid of all available information and then submitted to His Highness before a final decision is reached.

In connection with the Village Improvement Scheme, I notice that the gentlemen who constituted the committee are not in favour of legislation to enforce the system of weekly labour or payment of a cess instead. At the beginning of this month, I personally visited nearly 50 villages in the Chitaldrug District, and both in the villages and at meetings of representatives at the headquarters of taluks, the opinion was unanimous that some such measure was necessary.

The complaints of the cultivators under the Cauvery channels below the Krishanaraja Sagara have been brought to our notice with much ability by Mr. B. Narasinga Rao who pleaded for letting things alone. Only one side of the case was placed before you. If sugar-cane is allowed to be cultivated wherever the raiyats choose, the whole area will get water-logged, and with heavy manure the country is sure to become unhealthy with the result that, in the end, the cultivation itself will suffer. The new rules are intended for the orderly growth of sugar-cane cultivation. It is no pleasure to us to impose restrictions. Besides, water has been stored in the Krishnaraja Sagara at an expenditure of over a crore of rupees and a reasonable additional rate has to be levied for the supply. The representations will be investigated by a Committee and Government will give their decision on receipt of the Committee's recommendations.

Turning to forest grievances, nothing that the members have said has gone to show that the general principles of our forest policy are in any way unsound. But, I am willing to concede there may be individual grievances arising out of the practical application of the orders. These will be rectified if the gentlemen who complained will kindly send up a brief statement of such instances to Government.

We are all agreed that the system of irrigation under our large tanks is far from perfect but some improvement is noticeable wherever the Tank Panchayet Regulation has been working. It is hoped that the people will take fuller advantage of the Panchayet system and endeavour to improve irrigation under all the larger tanks and channels. If it is demonstrated that the system itself requires improvement, Government will readily revise the measures.

As regards increased postal and telegraph facilities, the officers of the Government of India have kindly given an assurance that special attention will be given, in future, to the wants of our State. We cannot expect any extension of telegraph lines till the war is over, but some immediate relief in respect of post offices has been promised. The public who have any recommendations to make, may address the Financial Secretary to Government in the matter.

Government have recently issued, after much consideration, an important order sanctioning certain reforms which have for their object the better supervision and management of temples and other muzrai institutions. Those who are interested in the work of the department will, I hope, help to give practical effect to the reforms sanctioned by Government.

The question of throwing open Amrut Mahal and date reserves for cultivation was discussed at some length. The departments concerned are quite willing to surrender the lands not absolutely required for their immediate use and a Committee is now sitting to consider how such transfers might be effected. Time is required for arranging preliminaries but it may be possible to complete the arrangements in the course of the current year.

The question of the separation of judicial and executive functions has been advocated with much earnestness. All I can say at present is that it is mainly one of cost and that it is receiving active consideration at the hands of Government.

In the discussions relating to the Excise Department, stress was laid on the importance of reducing drunkenness within the State. You have heard it from the Excise Commissioner himself that he is prepared to enforce the principle of local option. If, in any locality, the opinion in favour of the abolition of an existing shop is unanimous, he is willing to give effect to local wishes. A beginning has been already made. Government are prepared to face some loss of revenue although they do not think it would be appreciable.

The recommendations made by the Committee regarding the increase of remuneration to Shanbhogs and Patels will receive early consideration.

The question of the relation between inamdars and tenants is, as you may have noticed, a highly contentious one. It requires careful handling and will receive further attention.

As money is wanted for so many purposes, I cannot hold out any hope that the supari cess will be abolished. But every effort will be made to utilise the money realised in the best interests of the locality in which it is raised.

The most important work of this session has been the discussion of the budget.

Mr. Venkatakrishnaiya and Mr. Krishna Sastri were in favour of raising loans for the construction of productive public works. I welcome this statement, since it marks a great advance over the views held till recently by the leading public men of the State on this question.

The question of labour supply is being agitated with much enthusiasm and vigour by Mr. Hosakoppa Krishna Rao. Government appreciate his efforts and they hope he will persevere till a remedy is found.

Several Mohamedan members, led by Mr. Abbas Khan, spoke warmly on certain wants relating to Hindustani schools. The Inspector-General has made an effective reply. But Government are prepared to further consider any reasonable representation that may be made on the subject.

I was glad to hear from the representatives of the Mulbagal Taluk that they are willing to contribute half the cost of a railway line from Kolar to Mulbagal. If an application is submitted through the district authorities, with necessary particulars, it will receive the best consideration of Government.

Several important innovations have been introduced into this year's budget all of which make for the financial stability of the State and I am glad that they have met with your approval.

The total expenditure on productive public works since the Rendition comes to about $6\frac{1}{4}$ crores of rupees of which quite $2\frac{1}{2}$ crores have been spent on railways, irrigation and hydro-electric works within the past 5 years. While maintaining the finances in a sound condition, Government have been creating valuable property which is already bringing in additional non-tax revenues to the State.

The second session is chiefly intended to provide an opportunity for the discussion of the budget. I am sorry that the debate had to be curtailed to some extent. Probably, next year, we might be more fortunate and be able to spare more time.

You have kindly undertaken to form yourselves into committees for the investigation of a number of subjects before the next session. I am hoping that your labours may prove helpful to Government. It is not enough for you to say that, because Government officers are paid, they alone should do such work. You will also have to give a portion of your time to study public questions and give effect to the recommendations of this Assembly. It is easy to ask questions but you will agree that to attempt to solve them yourselves is even better, as it will enable you to appreciate more fully the difficulties of Government.

It would be good for the country if you specialised and became experts in the several branches of the public administration. In this work, there is no antagonism of interests, but there may be healthy rivalry between the officials and yourselves. The attempt will inspire confidence and increase your sense of responsibility. You will then perhaps more readily pay taxes and make sacrifices. To the extent you do this, will depend your influence with Government and the people.

M. VISVESVARAYA,
Dewan of Mysore.
